CONTENTS

VOLUME I

Sustainable Human Development in the Twenty-First Century: An Evolutionary Perspective	1
Ismail Sirageldin, <i>Johns Hopkins University, USA</i>	

1. Introduction to the Issues
2. Toward a Philosophy for Human Development for the Twenty-First Century
 - 2.1. From Biological Evolution to Cultural Adaptation
 - 2.2. Cultural Evolution, Symbolism, and Globalization
 - 2.2.1. The Inherited Burden of the Twentieth Century
 - 2.3. From Cultural Evolution to Technophysio Evolution
3. Human Progress and Prospects at the End of the Twentieth Century
 - 3.1. Culture: Evolution and Diversity
 - 3.2. Global Demographic Transition: Socio-Economic Consequences and Potential
 - 3.2.1. Demographic Change: Alarm About Depopulation and Stagnation?
 - 3.2.2. Demographic Change: A Window of Development Opportunities?
 - 3.2.3. Migration and Human Development
 - 3.3. Education, Learning Innovations, and Motivation
 - 3.3.1. Education Quantity and Quality
 - 3.3.2. Learning Innovations
 - 3.3.3. Motivation and Morals
 - 3.4. Globalization and Human Development
 - 3.5. The Income and Capability Gap: Unequal Opportunities and Poverty
 - 3.6. Gender
 - 3.7. Environment
4. Concluding Remarks: Opportunities and Challenges

Major Issues in Human Development	48
John Kantner, <i>Johns Hopkins University, USA</i>	

1. Human Development: What it Means
2. Traditionalism vs Universalism in the definition of human rights
3. Measuring Human Development
4. Diversity: Consequences for Human Development
5. Why Measure Human Development?
6. Foreign Assistance and Human Development
7. Prospects for Human Development
8. Disciplinary Approaches to Human Development

Anthropology and Human Development	63
Joan P. Mencher, <i>CUNY, USA</i>	

1. The Ways in which Anthropology Considers Issues of Development
 - 1.1. Introduction
 - 1.2. What is Development?
 - 1.3. Development and Social Policy
 - 1.4. Implications of Development for People's Lives
 - 1.5. Development and Ideology
 - 1.6. Techniques of Persuasion: Manipulating Minds
 - 1.7. Comparability of Countries
2. Human Development and Agriculture: An Anthropological Analysis
 - 2.1. Introduction

- 2.2. What is Agriculture? Corporate/State Farms versus Family Farms
- 2.3. Myths of Cheap Food and Efficiency
- 2.4. Environmental Hazards
- 2.5. The Focus of Agronomic Research and its Support
- 2.6. When is High-tech Needed?
- 2.7. Land Reform and Local Autonomy
- 2.8. Who Will Feed the World in the Twenty-first Century?
3. The Hope for the Future: Counter-corporatization with a Human Face
 - 3.1. Introduction
4. Conclusion

Moral Development and Moral Education

89

Michael H. Mitias, *Kuwait University, Kuwait*

1. Introduction
2. Nature of Moral Value
3. The Cognitive Developmental Approach
4. The Social Learning Approach
 - 4.1. Conditioning
 - 4.2. Modeling (Imitation)
5. Moral Development and Moral Education

Sustainable Human Development: Connecting The Scientific and Moral Dimensions

104

George W. Fisher, *Johns Hopkins University, USA*

1. Introduction
2. The Natural Context of Human Development
3. The Cultural Context of Human Development
4. Connecting the Natural and Human Contexts

Economic and Political Issues in Human Development

123

Hakim Ben Hammouda, *CODESRIA, United Nations, Cameroon*

1. Introduction
2. Sustainable Human Development in Economic Development Thinking
3. Nation-State Building and Enhanced Sustainable Development
4. Development Crisis and Structural Adjustment
5. Declining Human Development and Rising Poverty
6. Globalization and Sustainable Human Development
7. Concluding Remarks

Diversity and Historical Processes in Human Development

138

Ismail Sirageldin, *Johns Hopkins University, USA*

1. Introduction
2. Historical Roots of Diversity
 - 2.1. Optimists versus pessimists: a dialogue
 - 2.2. The danger of teleological explanations
 - 2.3. Scientific development and views of nature
 - 2.4. Impact on the global environment
3. Human Diversity in Recent Times
 - 3.1. Demographic and Capabilities Diversities
 - 3.2. Diversity in Resource Endowments
4. Concluding Remarks

Impact of Neuroscience in Human Development	167
<i>Xiaoqun Zhang, Cold Spring Harbor Laboratory, USA</i>	

1. Introduction
2. Neuroscience Before the Twentieth Century
 - 2.1. Structure of the Nervous System
 - 2.2. Neurons
3. Neuroscience in the Twentieth Century
 - 3.1. Neuronal Signaling
 - 3.1.1. Action Potential
 - 3.1.2. Synaptic Transmission
 - 3.2. Neuronal Circuits
 - 3.2.1. Neuronal Differentiation
 - 3.2.2. Axon Guidance
 - 3.2.3. Plasticity of Synapses
 - 3.3. Neuronal Systems
 - 3.3.1. Sensation and Perception
 - 3.3.2. Learning and Memory
 - 3.3.3. Emotion
4. Neuroscience Towards the Twenty-First Century
 - 4.1. Consciousness
 - 4.2. Gene Hunting
 - 4.3. Biochip
 - 4.4. Challenges

Equity, Growth, and Human Development	187
<i>Lyn Squire, The World Bank, USA</i>	

1. Introduction
2. Equity and Growth: Exposing the Grand Theories to Data
3. Global Trends in Inequality
4. The Double Misfortune of the Poor
5. Growth and Human Development: Learning from the Outliers
6. Asset Distributions and Growth
7. Empirical Relationships and Policy Levers

Global Interdependence, Privatisation of Risk, and Human Insecurity	198
<i>Ismail Sirageldin, Johns Hopkins University, USA</i>	
<i>Samia Serageldin, Duke University, USA</i>	

1. Introduction
2. Global Interdependence: a New Global System?
3. Finance and the Privatization of Risk
4. Governance: the Changing Roles of National Authorities
5. Prospects for Human Development in the Emerging Global Village
 - 5.1. On the Supply and Demand of Labor
 - 5.2. Poverty
6. Concluding Remarks

VOLUME II

Globalization and Human Development: An Overview

1

Syed Nawab Haider Naqvi, *Federal Urdu University of Arts, Science & Technology, and Higher Education Commission, Pakistan*

1. Introduction
2. The Foundational Issues
 - 2.1. Globalization
 - 2.1.1. Technological Change
 - 2.1.2. Liberalization of Trade and Capital (and Labor) Flows
 - 2.1.3. Multinational Corporations
 - 2.2. "Free" Markets/Trade
 - 2.3. Economic Development
 - 2.4. Human Development
 - 2.5. The Importance of Being Moral
 - 2.6. Mixed Economy
3. Globalization, "Price Rightism," and Free Markets/Trade
 - 3.1. Economic Agents in This Age of Globalization
 - 3.2. Globalization and Market Access
 - 3.2.1. Asymmetrical Nature of the GATT-WTO System
 - 3.2.2. The Inaccessible OECD Market
4. Globalization and the Slowing Down of the Engine of Economic Growth and Human Development
 - 4.1. The Weakening of Structural Transformation
 - 4.2. The Worsening Human Development
5. The Twenty-First Century and the New Frontiers
 - 5.1. The Monkey Wrench in the Works
 - 5.2. Regulating Globalization
 - 5.3. An Overarching Vision
 - 5.3.1. The End of Laissez-Faire
 - 5.3.2. Resolving the Moral Dilemma

Population Transition

42

Mary M. Kent, *Population Reference Bureau (PRB), USA*
 Alene Gelbrad, *Population Reference Bureau (PRB), USA*
 Carl Haub, *Population Reference Bureau (PRB), USA*
 Farzaneh Roudi, *Population Reference Bureau (PRB), USA*

1. Introduction
2. Demographic Transition
3. Population Growth Before 1950
4. Population Change 1950 to 2000
 - 4.1. Mortality, Fertility, and Natural Increase
5. Twentieth Century Migration
6. Urbanization
7. Changing Age Profiles
8. Population Prospects 2000 to 2050
9. Economic Development and Environment
10. Perspectives and Responses to Population Growth
 - 10.1. The 1994 International Conference on Population and Development
11. Conclusion

Ecological and Environmental Change

67

Mohamed A. Serageldin, *US Environmental Protection Agency, USA*

1. Introduction
2. Legislative History
 - 2.1. The United States
 - 2.2. The European Union
 - 2.3. A Comparison of the US and the EU
 - 2.4. Dissemination of Information
3. Sources of Pollutant Emissions and Emission Controls
4. Implementation and Enforcement
 - 4.1. Air Quality Management
 - 4.1.1. US Air Quality Management
 - 4.1.2. EU Air Quality Management
 - 4.2. Economic Incentives
 - 4.3. Pollution Prevention (P2)
 - 4.4. Permits and Licenses
 - 4.5. Eco-Industrial Parks
5. Protection of Ecology
 - 5.1. Cost Considerations
 - 5.2. Effect of Air Pollution
 - 5.3. The State of the Ecosystem
 - 5.4. Ecological Indicators
6. Tools for Decision-Making
 - 6.1. Risk Assessment
 - 6.2. Cost and Economic Valuation
 - 6.2.1. Cost-Effectiveness
 - 6.2.2. Cost-Benefit Analysis
 - 6.2.3. Statutory Requirements
7. Concluding Remarks

Health, Sanitation, Nutrition and Human Development

87

Alan Sorkin, *University of Maryland, USA*

1. Introduction
2. Health and Economic Development
3. The Effect of Development on Disease - Some Negative Consequences
4. Health, Nutrition and Education
5. Water Supply, Sanitation and Health
6. Water and Economic Development
 - 6.1. Increased Time for Productive Work
7. Nutrition and Development—Macro Considerations
8. Nutrition and the Efficiency Wage Hypothesis
 - 8.1. Empirical Studies of Nutrition and Productivity
 - 8.2. Seasonal Hunger
 - 8.3. Intra-Family Distribution of Food and Nutrients

Belief and Attitude Change in the Context of Human Development

103

Carol Underwood, *Johns Hopkins University, USA*

1. Introduction
2. The Belief Construct
3. The Attitude Construct
4. Belief and Attitude Formation
 - 4.1. The Psychology of Personality
 - 4.2. The Social Context of Belief and Attitude Formation
 - 4.3. The Cultural Context of Belief and Attitude Formation
5. Theories of Belief and Attitude Change
 - 5.1. Persuasion, Communication and Attitude Change

- 5.2. The Role of Beliefs and Attitudes in Change Theories
6. Implications of Attitude and Belief Change for Human Development
 - 6.1. Are reformulated beliefs and attitudes related to social change?
 - 6.2. Changing Beliefs, Changing Attitudes: Evidence from the field
 - 6.2.1. Fertility and Contraceptive Use
 - 6.2.2. Gender Constructs
 - 6.2.3. Consumerism
7. Concluding Remarks

Demographic Transition and Education in Developing Countries 125

Anne Valia Goujon, *Austrian Academy of Sciences, Austria*

1. Introduction
2. Education and Fertility
 - 2.1. Trends and Patterns
 - 2.2. Models of Explanation
3. Education's Impact on Morbidity and Mortality
4. Education and Development
5. Conclusion

Consequences of Global Change to Human Development 141

Mohamad M. El-Imam, *Economic Consultant, Egypt*

1. Introduction
2. Three Revolutions
3. Concern with Economic Structures
4. From the Economic to the Human versus the Social
5. Evolution of the Concept of Human Development
6. Extension of the Concept of Efficiency
7. Conclusion

Policy-Making in a Globalizing World Economy 176

Raed Safadi, *Organisation for Economic Co-operation and Development (OECD), France*

1. Introduction
2. Globalization Trends
 - 2.1. Investment
 - 2.2. The Globalization of Production
 - 2.3. International Trade
 - 2.3.1. Merchandise trade
 - 2.3.2. Trade in services
 - 2.3.3. Services, the new economy and development
3. Policy-Making in A Globalizing World Economy
 - 3.1. The Agreement on Trade-Related Intellectual Property Rights
 - 3.2. Technical Standards and Regulatory Reform
4. Concluding Remarks

Inequalities in Education: International Experience 203

Deon Filmer, *The World Bank, USA*

1. Introduction
2. Measuring Educational Outcomes and Household Wealth
3. The Wealth Gap in Educational Attainment and Enrollment
4. The Gender Gap in Educational Attainment and Enrollment

5. The Interaction of Wealth and Gender
 - 5.1. Gender Gaps by Wealth
 - 5.2. Wealth Gaps by Gender
6. International Correlates of Education Gaps

Natural Resource Availability 215

Salah El Serafy, *International Economic Consultant, USA*

1. Introduction
2. Availability and Scarcity
3. Concepts and Classifications
4. Resources and Classical Economics
5. The Neoclassical Contribution
6. The Empirical Evidence
7. Market Failures
8. The Environmentalists' Role
9. The Problem of Scale
10. Substitutability
11. Sustainability
12. Green Accounting
13. International Conflicts
14. Conclusions

Poverty: Dimensions and Prospects 237

Ali Abdel Gadir Ali, *Arab Planning Institute (API), Kuwait*

1. Introduction
2. Poverty Measurement
3. Dimensions of Poverty
4. Prospects for Achieving the IDG on Poverty
5. Prospects: Growth and the Income of the Poor
6. Concluding Remarks

Global Population Aging 256

Rebeca Wong, *University of Maryland, USA*

1. Introduction
2. Global Trends in Population Aging: Inequality of Aging Pace, Timing, and Initial Social and Economic Conditions
3. Consequences of Population Aging: Adjusting to "the Crisis"
4. Consequences for Developing Countries: Social Sector Reforms -- Pension and Health Care Systems
5. Beyond the Economic and Social Sector Reforms: Culture and Laws, and the Special Case of Vulnerable Women
6. Global Interaction of Populations and Economies: Migration as a Special Case
7. Concluding Remarks

Human Development Objectives 270

William (Bill) A. Reinke, *Johns Hopkins School of Hygiene and Public Health, USA*

1. Introduction
2. Physical and Behavioral Objectives
 - 2.1. Scientific Management
 - 2.2. Theories X and Y
 - 2.3. Dissatisfaction and Motivation

3. Labor Quantity, Job Content, and Performance Quality
 - 3.1. Quantitative Increases
 - 3.2. Job Descriptions
 - 3.3. Quality Assurance
4. Environment for Change
 - 4.1. Increasingly Comprehensive Evaluation Perspective
 - 4.1.1. Equity
 - 4.1.2. Quality and Satisfaction
 - 4.1.3. Sustainability and Renewal
 - 4.2. The Global Village
5. Stakeholder Perspectives
 - 5.1. Employee Views
 - 5.2. Employer Views
 - 5.3. Societal Views
 - 5.4. Conflict Management
6. Directions for the Twenty-first Century
 - 6.1. Career Adaptation
 - 6.2. Organization Loyalty
 - 6.3. Technology Balance
 - 6.4. Work and Leisure Trade-off

Inequality Among Women and Its Impact on Economic Growth: The Case of Mena	285
<i>Djehane E. Hosni, University of Central Florida, USA</i>	
<i>M. Sandberg, University of Central Florida, USA</i>	
<i>Adriana Chanmala, University of Central Florida, USA</i>	

1. Introduction
 - 1.1. Human Development Index (HDI)
 - 1.2. Gender-related Development Index (GDI)
2. Gender Gaps
 - 2.1. Educational Gender Gap
 - 2.2. Employment Gender Gap
 - 2.2.1. Gender Empowerment Measure (GEM)
3. Status of Women
 - 3.1. Female Endangerment
 - 3.2. GEM - FEM Adjustment
4. Inequality Among Women
 - 4.1. Educational Inequality
5. The Impact on Economic Growth
6. Concluding Remarks
